## A NOTE FROM DAVE

# Celebrating Our Great Nation

July is the seventh month of the year, and as we begin to the second half of the year it's a great time to start on a new foot!

We will be marking the United States of America's 245th year of independence on July 4th! We sure do have a lot to celebrate as a community and a nation! One reason I enjoy Independence Day is because no matter what side of any fence you stand on, as a collective, this day brings fellowship and joy for all Americans. I hope you enjoy this great country's anniversary.

Here are some fun facts about JULY...

July is named after Julius Caesar and was originally the fifth month in the Roman calendar. It was changed to the seventh month around 450 BCE and was completely reformed and renamed in 45 BCE during the Julian Calendar reform.

July is the warmest month in the Northern Hemisphere and the coldest month in the Southern Hemisphere. Another cool fact about July is that it always starts on the same day of the week as January during leap years. On normal years it begins on the same day of the week as April. July's birthstone is the Ruby which symbolizes contentment. I hope we are all content at Rutland Place, I know I am blessed beyond belief.

I encourage everyone to enjoy the weather July brings, there is plenty of sun to soak up. Love you all,
